

The ANZTLA *E* Journal

Australian and New Zealand Theological Library Association  No. 23 (2019)

Presenters at ANZTLA's 2019 conference were asked to work with a theme of *Boundless*, specifically, to explore the idea of endless possibilities for growth and development for libraries. As Kelly Campbell, one of the keynote speakers, noted: "If we, as librarians, are challenged to be boundless in opening up opportunities and possibilities, we need to start by changing our mindset, our perspective, and our philosophy." We were provided with practical ways to begin to do this and reminded that even small changes now can have a major impact in the long term. A snapshot of these ideas is captured in the papers below. Enjoy!
