

2007 Statistics Report

by Kerrie Stevens - ANZTLA Statistician

This is the first year of electronic statistics returns using Survey Monkey. It was well received by ANZTLA libraries, however a few issues will be developed for future statistics returns.

There were 41 statistics responses received containing 2007 data. This represents 33.8% of ANZTLA libraries invited to respond via the ANZTLA forum. Results tables were compiled of all library responses, with the 'type' of library indicated at the side (A, B or C). This enables all data to fit on one page, less confusion, and still allows for easy comparison between libraries.

Future statistics questionnaires will include the following amendments suggested by responding libraries:

- Volunteers
- More flexibility in some question sections
- Baptists to be included as an option in the predominant denomination of collection question
- Extra field for postal address details if different from street address
- Internet details, eg: wireless availability, docking stations etc.
- Differentiation between new purchases and second-hand purchases

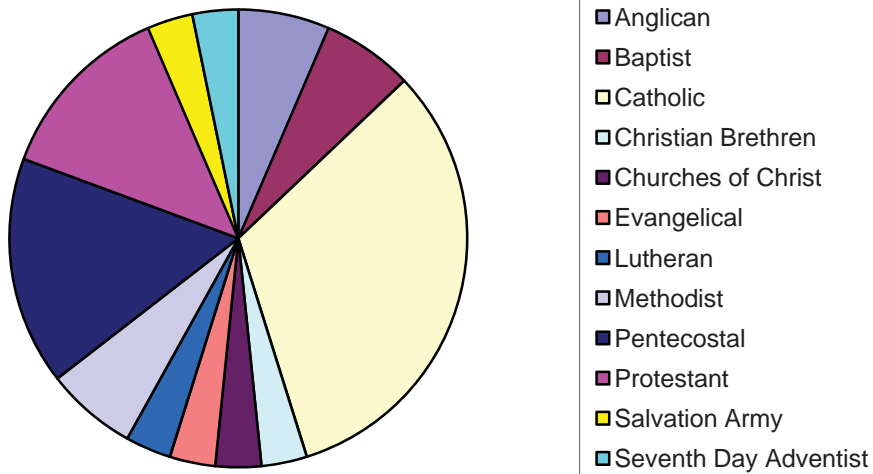

Graphs were introduced this year to illustrate the spread of denominations amongst ANZTLA respondents and the spread of staff salary scales in ANZTLA libraries, and provide a little colour!

TABLE 1 2007 LIBRARY INFORMATION

ABC	INSTITUTION	STATE NZ	PREDOMINANT DENOMINATION OF COLLECTION
