Welcome to the tenth issue of *The ANZTLA EJournal* – the official serial publication of the Australian and New Zealand Theological Library Association.

This non-conference issue includes a range of significant contributions beyond the Association's statistics – a very pleasing development, and one that we'd like to see continue. Submissions of articles, reports or reviews of relevance to all members, would be welcomed for inclusion in *The ANZTLA EJournal*.

The collection that follows will inform, entertain and delight. There are snapshots of current practices and projects, and articles relating to technology, reading, history, teaching and collective nouns!

Enjoy!
