

# The ANZTLA *E*Journal

Australian and New Zealand Theological Library Association  No. 25 (2020)

*2020 ANZTLA Virtual Conference*

Although this issue of the journal would usually publish papers presented at the annual ANZTLA conference, due to COVID-19, that conference has been postponed until 2021. To meet the desire for professional development and collegiality, a virtual conference was held during September, which also included entertaining and informative pre-conference cataloguing sessions and online excursions to various libraries around the world. The discussions relating to cataloguing and classification have been condensed and shared here.

Surveys were administered in April and September to capture ANZTLA members' experiences of dealing with the challenges and opportunities that COVID-19 presented to our libraries and institutions. The breadth of responses makes for very interesting reading and may prove useful for future planning.

*After Whom is Your Library Named?* appears for the first time in *The ANZTLA EJournal*. This will become a regular column in the non-conference issue. Featured this time are the James Wallace Memorial Library and the Colin Library. Who were these people and what were the circumstances that led to libraries being named after them?

**Kerrie Stevens & Eve James**
