

ANZTLA 2025 Statistics

Compiled by Kerrie Stevens

ANZTLA Statistician

ANZTLA Statistics are compiled annually from data provided by ANZTLA member libraries on a voluntary basis. All ANZTLA Libraries are encouraged to contribute their data. The reporting categories are described as follows:

- A - Provides clergy training programmes (i.e.: The Australian and New Zealand Association of Theological Schools [ANZATS] member schools) and/or school and training institutions which offer broad theological training (i.e.: Bible Colleges, Missionary Training Institutions) possibly leading to degree or post-graduate qualifications;
- B - Do not have students (i.e.: church administrative libraries, resource centres, para-church organisations, etc.); and
- C - Institutions offering non-theological courses in addition (i.e.: teacher training).

Data has been entered as submitted by the libraries. Any questions should be directed to the libraries concerned.

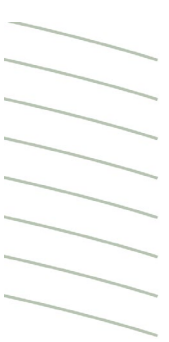

Of the 57 institutional members in 2025, 34 responses were received encompassing 40 libraries, equating to a 60% response rate of member institutions.

Note: Data from Table 4 Loan Periods has not been included in this compilation of statistics due to the understanding that loan periods generally do not change very often. These tables will be included in the published annual statistics as deemed necessary.

Thank you to all libraries who contributed to the ANZTLA 2025 Statistics!

Discussion

It is interesting that our libraries have an average of 1.39 positions, but they are filled by more than 3 people in 2025. It may indicate that job-share and more part-time work is being utilised in our libraries. The number of positions has decreased slightly over the last five years but the number of people filling those positions has varied more significantly over the same period.

Discussion

It is pleasing to see the average number of loans rebounding and exceeding pre-Covid levels at the responding libraries. Post-COVID lending figures suggest not a decline in digital adoption, but a rebalancing, with physical collections continuing to play a vital role in sustained learning, research, and formation after the inflated but necessary reliance on digital resources throughout the pandemic.

ANZTLA library requests for additional resources has remained steady over the last 6 years at 10-15 requests per library per year. These figures could demonstrate that ANZTLA core collections are generally fit for purpose, with no significant shift in the number of ILLs requested. This shows collection maturity and an alignment with curriculum and research needs at the responding libraries. The peak in ILLs supplied in 2020 is likely Covid-driven and the following ‘decline’ likely suggests a return to normal supply rates rather than a loss in resource relevance.

Discussion

The breadth of other-language collections across ANZTLA libraries highlights not just scholarly depth, but the different communities we serve, and the way ANZTLA works collectively as a shared theological resource. Future statistics questionnaires will ask which languages are actively being collected, such as to support programs offered in other languages, rather than being accumulated through donation or ad hoc purchasing.

Discussion

Whilst it is pleasing to see most library staff are being paid at a professional or prescribed rate, it was noted by more than one respondent that wages were at the lower end of these scales.
