

The ANZTLA *E* Journal

Australian and New Zealand Theological Library Association  No. 16 (2016)

Library Statistics are vital to manage your library effectively

As the IFLA Statistics Manifesto¹ states: “Library statistics are necessary for the effective management of libraries, but they are still more important for promoting library services to the different types of stakeholders: policy makers and funders, library managers and staff, actual and potential users, the media and the general public.

Where statistics are aimed at policy makers, managers and funders, they are essential for decisions on levels of service and future strategic planning. Library statistics can reveal a wealth of material, of hidden success stories where libraries have opened and ensured access to relevant information for all groups of the population.” This issue contains the ANZTLA Statistics covering data from the year 2015.

ANZTLA 2015 Statistics

by Kerrie Stevens

ANZTLA Statistician

ANZTLA Statistics are compiled annually from data provided by ANZTLA member libraries on a voluntary basis. All ANZTLA Libraries are encouraged to contribute their data.

The reporting categories are described as follows:

- **A** - Provides clergy training programmes (ie: The Australian and New Zealand Association of Theological Schools [ANZATS] member schools) and/or school and training institutions which offer broad theological training (ie: Bible Colleges, Missionary Training Institutions) possibly leading to degree or post-graduate qualifications;
- **B** - Do not have students (ie: church administrative libraries, resource centres, para-church organisations, etc.); and
- **C** - Institutions offering non-theological courses in addition (ie: teacher training).

Data has been entered as submitted by the libraries. Any questions should be directed to the libraries concerned.

Thank you to all libraries who contribute to the ANZTLA Statistics!

TABLE 1 2015 – Library Info
