SECTION ONE: NEW AND CHANGED SUBJECT HEADINGS
COMPILED BY JOANNA HAUSE

The subject headings in this list were selected from the Library of Congress Subject Headings Weekly Lists, available on the Library of Congress web site at: <http://lcweb.loc.gov/catdir/cpso/cpso.html#subjects>.

This list consists of headings selected from the Library's list numbers 41-51 of 2007.

The following conventions are used, as in previous lists:

Headings are in a single alphabetical sequence, preceded by MARC tags. The record number (Library of Congress control number) follows the heading. The absence of the instruction [May Subd Geog] means that the heading is **not** to be further divided by place.

The following print constants appear:

UF = Used For

BT = Broader Term

RT = Related Term

SA = See Also

* Asterisks mark lines (or paragraphs) that are CHANGES.

Selected changes to free-floating subdivisions are at the end of the list.

The DDC numbers include all headings newly mapped to the 200 Religion Schedule, as well as others considered to be of interest to theological libraries. The list is not exhaustive, and the schedules and tables should be consulted before applying a number from this list.

**SECTION TWO, PART 2: LC CLASSIFICATION
ADDITIONS AND CHANGES, B-BX
COMPILED BY ERIC FRIEDE**

The entries in this list were selected from the Library of Congress, Cataloging Policy and Support Office's Library of Congress Classification Weekly List, 44 (October 31, 2007) to 51 (December 19, 2007) and 01 (January 2, 2008) to 03 (January 16, 2008).

"Weekly lists of additions and changes to the Library of Congress Classification (LCC) are posted on the Cataloging Policy and Support Office Web site as they are approved."-- Library of Congress Classification (LCC) Weekly List [at <http://www.loc.gov/aba/cataloging/classification/weeklylists/>].

The class letter identifies the schedule to which changes and additions are made. New captions are accompanied by a full hierarchy as necessary; changes are indicated by a cancelled line and the addition of a new line. Changes are also highlighted in gray. Numbers that appear in square brackets are not printed in the printed editions of the classification schedules. They are shown on this list only to indicate the location of the corresponding caption or reference within the classification.

This list also includes selected changes and additions outside the B-BX classes relating to religious topics or library science.

SECTION THREE: NEWS AND VIEWS OF THE MEMBERS OF THE ATLA TECHNICAL SERVICES SECTION

EDITED BY LYNN BERG

Vol. 16, No. 2

February 2008

REPORT OF THE ATLA REPRESENTATIVE TO THE CC:DA

Midwinter Meeting

I attended the ALA Midwinter Meetings earlier in January, and found that the general attitude to *RDA* was much more negative than previously. The ALA representative to the JSC acknowledged that the other partners (Great Britain, Canada and Australia) are much more enthusiastic about *RDA* than is ALA. The tenor was so negative that the chair of CC:DA's parent committee asked whether ALA should seriously consider stepping back from *RDA* and returning to a revision of *AACR2* which would be much less radical. There seems to be little likelihood of that happening, however, since the general feeling was that the "train has left the station and if we get off now, we may never be able to get back on." So the work goes on, however reluctantly.

Future of Bibliographic Control Report

Based on the recommendation to suspend work on *RDA* included in the *Report to the Library of Congress on the Future of Bibliographic Control*, Deana Marcum indicated in a talk to catalogers at the LC exhibit booth that whether to continue participating in the development of *RDA* would be the first decision taken during the next few months. Decisions and action plans relating to the other recommendations would follow. She reported that she had asked three groups to study the report and deliver their comments to her: LC managers in the Cataloging and Acquisitions division, members of the Reference Division, and Thomas Mann.

RDA timetable:

- Dec. 2007 Draft of Access portion of *RDA* available for review (463 pages!)
- Feb. 2008 End of review period for *RDA* Access chapters
- July 2008 Complete draft of the rules released for review
- Aug. 2008 Release of full online version, in time for the IFLA conference
- Early 2009 Publication of the online version of *RDA*

RDA content:

There have been very few changes in the content of the rules for access from those rules as presented in *AACR2*. For the most part, the rules have just been rewritten in a very dense,

convoluted manner which makes them hard to understand, using unfamiliar terminology. The terminology used and the style of the writing are two of the major causes of discontent with *RDA*. To address that concern, JSC is considering hiring a writer to simplify the writing style, once the content of the rules has been finalized.

ALA Publishing Report

The report of the ALA publishing representative received mixed reviews. The list of features to be included in the online version of *RDA* received unanimous approval. If the initial release of the product contains the features he mentioned, the consensus was that it would be a fantastic product.

He stirred up a controversy when he mentioned that there would be links between *AACR2* and *RDA*. Some committee members thought it was a good idea, and others felt it would be a crutch catalogers should not have. The consensus was that if ALA Publishing did not create the crosswalk, some one else would, so ALA Publishing might as well go ahead and do it.

Finally, he raised a storm of protest when he waffled on whether there would be a print version published. Clearly, the same version prepared for the online product could not just be printed out to provide a print version. Extensive editing would be required. He indicated that if a print product was published, it would not be issued at the same time as the online version. He was informed most emphatically that a print product was essential and that *RDA* would surely fail without it.
