Section One: New and Changed Subject Headings

Compiled by Ann Heinrichs

The subject headings in this list were selected from the monthly Library of Congress Subject Headings (LCSH) Approved Lists. LC's Policy and Standards Division posts these lists on the Library of Congress Cataloging and Acquisitions web site at: http://www.loc.gov/aba/cataloging/subject/weeklylists/.

The headings listed here reflect the most recent information available at the time of publication. Headings in this issue's list were selected from LCSH list numbers 05 (2014: May 19) and 06 (2014: June 16).

The following conventions are used, as in previous lists:

Subject headings are in alphabetical order. Those **without** the instruction [May Subd Geog] are **not** to be further divided by place. The number in square brackets is the Library of Congress Control Number (LCCN) for that heading's authority record (not the ARN/Authority Record Number).

All lines begin with their MARC tag. Most headings are followed by other MARC fields in the authority record (e.g., 450, 550), along with explanatory abbreviations:

UF = Used For
BT = Broader Term
RT = Related Term
SA = See Also

Relevant changes to free-floating subdivisions and genre/form terms, if any, are at the end of the list.

Section Two: LC Classification Additions and Changes, B-BX

Compiled by Ann Heinrichs

The entries in this list were selected from the monthly Library of Congress Classification (LCC) Approved Lists. LC's Policy and Standards Division posts these lists on the Library of Congress Cataloging and Acquisitions web site at: http://www.loc.gov/aba/cataloging/classification/weeklylists/.

Items listed here reflect the most recent information available at the time of publication. Entries in this issue's list were selected from LCC list numbers 05 (2014: May 12) and 06 (2014: June 9).

The full hierarchy is provided for new and revised classification captions to show their context within the classification. Numbers that appear in square brackets are not displayed in Classification Web browse screens. They are shown on this list only to indicate the location of the corresponding caption or reference within the classification.

The class letters (B, BS, etc.) identify the schedule in which changes and additions have been made. This list also includes selected changes and additions outside the B-BX classes relating to religious topics or library science.

BEST PRACTICES TASKFORCE REPORT

At the 2014 Annual Conference in June, both the NACO Listen and Learn session attendees and the NACO Funnel members gathered to discuss best practices for personal name authority records.

Those gathered discussed the usefulness and purpose of the optional fields in name authority records. If the purpose of the optional fields is solely to uniquely identify the individual whose name is being established, then the only information that needs to be recorded in the optional data fields is information which will do just that. If the purpose of providing the optional information in coded fields is also to retrieve information about individuals by searching on common characteristics, then recording all readily available information as well as consistency of terminology used becomes equally important.

The majority of participants seemed to favor providing as much information as is readily available and to work towards consistency of terminology.

One major area which lacks appropriate terms in standard sources is the area of occupation. Neither the *Library of Congress Subject Headings* nor the *Dictionary of Occupational Titles* include many relevant occupations for the field of religion. Participants suggested that a thesaurus of occupations in the field of religion should be developed and published as a recognized standard. Once that is done, the occupations can be used in the MARC 374 field and coded as from a standard in the subfield 2.

Such a thesaurus is now under development and will be widely circulated once a draft is ready. The Best Practices Taskforce is also working on a draft of a Best Practices for Personal Name Authority Records. That draft will also be circulated once it has been approved by the Taskforce.

CHANGES IN RECORDING UNIFORM TITLE DATES FOR BIBLE

The Joint Steering Committee at its November 2014 meeting will be considering a proposal to change the way dates are recorded in Bible uniform titles. Specifically, the proposal calls for replacing the instructions in RDA 6.24 Date of Expression of a Religious Work with a reference back to the instructions in RDA 6.10 Basic Instructions on Recording Date of Expression. The impact of this change is that catalogers will need to search for the earliest manifestation of the expression rather than using the publication year of the item in hand (6.24.1.4). My understanding is the date of publication of each manifestation of the Bible is useful to scholars   because each manifestation is significant due to the sacredness of the

text. Scholars are interested in each printing since any change in wording or typos can be significant. Perhaps in our secular society that is no longer meaningful.

The proposal also calls for eliminating the Alternative option for facsimile reproductions in RDA 6.30.3.2 Authorized Access Point Representing an Expression of a Religious Work. This means that catalogers will record only the date of the original publication of that text of the Bible. If the text is a facsimile of a 1535 edition of the Bible, the only Bible authorized access point will include the 1535 date. There will not be an entry to indicate that this is a 2010 printing of that facsimile.
