American Theological Library Association

Section One: New and Changed Subject Headings
Compiled by Joanna hause

The subject headings in this list were selected from the Library of Congress Subject Headings Weekly Lists, available on the Library of Congress web site at: http://lcweb.loc.gov/catdir/cpso/cpso.html#subjects.

This list consists of headings selected from the Library's list numbers 4 - 7 (2013).

The following conventions are used, as in previous lists:

Headings are in a single alphabetical sequence, preceded by MARC tags. The record number (Library of Congress control number) follows the heading. The absence of the instruction [May Subd Geog] means that the heading is **not** to be further divided by place.

The following print constants appear:

UF = Used For
BT = Broader Term
RT = Related Term
SA = See Also
* Asterisks mark lines (or paragraphs) that are CHANGES.

Selected changes to free-floating subdivisions are at the end of the list.

Section Two: LC Classification Additions and Changes, B-BX

compiled by Joanna Hause

The entries in this list were selected from the Library of Congress, Policy and Standards Division's Library of Congress Classification List, 4(2013:April 15) to 7(2013:July 15).

The lists of additions and changes to the Library of Congress Classification are posted on the LC Cataloging and Acquisitions Web site as they are approved monthly.

The lists are at: http://www.loc.gov/aba/cataloging/classification/weeklylists/.

The class letter identifies the schedule to which changes and additions are made. New captions are accompanied by a full hierarchy as necessary; changes are indicated by a cancelled line and the addition of a new line. Changes are also highlighted in gray. Numbers that appear in square brackets are not printed in the printed editions of the classification schedules. They are shown on this list only to indicate the location of the corresponding caption or reference within the classification.

This list also includes selected changes and additions outside the B-BX classes relating to religious topics or library science.

Please send comments, suggestions, or corrections to me at:

Section Three: News and Views of the Members of the ATLA Technical Services Section

Edited by Leslie Engelson

LC GENRE/FORM TERMS FOR RELIGIOUS MATERIALS PROJECT

Janis Young at LC reports that the religion genre/form terms document submitted August 2012 is still under review. When both the participants and LC staff are comfortable with any revisions made as a result of LC's review, LC will make the terms available for public review. Ms. Young will then once again forward any substantive comments on the terms to project participants for their response.

NEWS
TRAINING PRESENTATIONS, WEBCASTS, AND WEBINARS

ALCTS webinars:

Managing E-Resources Cataloging: Impact and Insight, August 21, 2013. In this webinar, we are going to focus on managing the cataloging activities for all types of e-resources a typical academic/research library will acquire, which will be divided into two different workflow namely cataloging and loading. We will cover aspects including the collaboration with other units in the library especially the Acquisition's E-resources group and collection managers, how to motivate staff, what tools can help, and most important, how to prepare oneself to be a good manager for e-resources cataloging. http://www.ala.org/alcts/confevents/upcoming/webinar/082113

Using Open Refine to Update, Clean up and Link your Metadata to the Wider World, September 18, 2013. Missspelings, extra spaces, random; punctuation/ and wEird capitalizaTion: Are any of these issues with your metadata? Open Refine (formerly Google Refine) is a powerful tool that can solve all of these problems with a single click. Open Refine also allows you to transform your data from one format to another, extend it with web services, and even connect it to linked data sources like Freebase. http://www.ala.org/alcts/confevents/upcoming/webinar/091813

Electronic Resources Workflows and Tools, October 23, 2013. This webinar will cover key points to consider, tools, and workflow options in managing electronic resources. Most libraries use multiple tools and approaches to manage e-resources, which brings benefits and challenges. Speakers will provide insights and perspectives on ERM systems, supplemental processes to fill gaps in functionality, and those systems' interoperability with patron-facing interfaces. http://www.ala.org/alcts/confevents/upcoming/webinar/102313

Evaluating Print Book & E-Book Patron-Driven Acquisitions (PDA), November 13, 2013. This webinar will describe two patron-driven acquisitions (PDA) models -- (1) buying print books based on interlibrary loan borrowing requests and (2) the current e-book model working with an e-book aggregator and/or a library book vendor -- and will describe several approaches for evaluating the success and effectiveness of both models. Evaluation points include considerations such as subsequent circulation, appropriateness to the collection of purchased titles, subject analysis, cost analysis, and even a peek at the difference in future performance between user-selected and librarian-selected e-

books. http://www.ala.org/alcts/confevents/upcoming/webinar/111313

Assessment Strategies for Cataloging Managers, November 20, 2013. Qualitative assessment activities, when conducted regularly and methodically, can help managers and administrators understand the impact and value of the work that we do for our customers. Are we meeting our customers' needs? Are there services that we could provide but currently do not? What are our customers' priorities? Are we responsive to their questions and issues? Are we working as effectively as we can? This webinar will explore the use of customer service surveys, focus groups, quality initiatives, benchmarking, and other methods to evaluate and assess the work that we do. http://www.ala.org/alcts/confevents/upcoming/webinar/112013

Registration Fees vary.

OCLC's RDA Training Calendar: http://www.oclc.org/support/training/calendars/rda-calendar.en.html

Brick & Click, an Academic Library Symposium, November 1, 2013. Now in its 13th year, the Brick and Click Libraries Symposium (#b&c13) is a one-day event featuring concurrent and lightning round sessions that explore cutting-edge technologies, practical solutions, and timely topics. The Symposium supports the academic information needs of both on-ground (brick) and online (click) students, library professionals and paraprofessionals. http://brickandclick.org/
