Section One: New and Changed Subject Headings

Compiled by Joanna Hause

The subject headings in this list were selected from the Library of Congress *Subject Headings Weekly Lists*, available on the Library of Congress web site at: http://lcweb.loc.gov/catdir/cpso/cpso.html#subjects.

This list consists of headings selected from the Library's list numbers 10-11 of 2012.

The following conventions are used, as in previous lists:

Headings are in a single alphabetical sequence, preceded by MARC tags. The record number (Library of Congress control number) follows the heading. The absence of the instruction [May Subd Geog] means that the heading is **not** to be further divided by place.

The following print constants appear:

UF = Used For
BT = Broader Term
RT = Related Term
SA = See Also
* Asterisks mark lines (or paragraphs) that are CHANGES.

Selected changes to free-floating subdivisions are at the end of the list.

Section Two: LC Classification Additions and Changes, B-BX

compiled by Joanna Hause

The entries in this list were selected from the Library of Congress, Policy and Standards Division's Library of Congress Classification List, 10 (2012: October 15) to 12 (2012: December 15).

The lists of additions and changes to the Library of Congress Classification are posted on the LC Cataloging and Acquisitions Web site as they are approved monthly.

The lists are at: http://www.loc.gov/aba/cataloging/classification/.

The class letter identifies the schedule to which changes and additions are made. New captions are accompanied by a full hierarchy as necessary; changes are indicated by a cancelled line and the addition of a new line. Changes are also highlighted in gray. Numbers that appear in square brackets are not printed in the printed editions of the classification schedules. They are shown on this list only to indicate the location of the corresponding caption or reference within the classification.

This list also includes selected changes and additions outside the B-BX classes relating to religious topics or library science.

Edited by Leslie Engelson

BIBFRAME Model

"The Library of Congress is pleased to announce the publication of http://bibframe.org/ - a new website for detailed information about the in-development, draft BIBFRAME vocabulary. It also includes demonstrations of the BIB-FRAME model from MARC bibliographic records from all of the experimenters' collections, including the Library of Congress. These are displayed in a human-friendly manner with Exhibit 3, a light-weight publishing framework for data. The source MARC/XML data, resulting BIBFRAME resources, and Exhibit JSON are available for download. "We encourage and want constructive feedback on the vocabulary and data transformations. All are invited to join the conversation. …The vocabulary is designed to get us started, but, as a community effort, your valuable feedback is essential (and has been already - thank you."

OCLC RDA Policy Statements (effective March 31, 2013)
http://www.oclc.org/us/en/rda/new-policy.htm

Hybrid Records

When editing and replacing master records in WorldCat, catalogers may choose to add some RDA elements to existing non-RDA records without re-cataloging the entire record according to RDA. Candidates for such editing include, but are not limited to:

- Adding relator terms to access points
- Spelling out non-transcribed abbreviations
- Adding complete statements of responsibility in 245 (in place of "[et al.]")
- Adding 336/337/338 fields

General Material Designators (GMDs)

As recommended in the PCC Guidelines on Hybrid Bibliographic Records, OCLC will retain the 245 h GMD for a period of 3 years in WorldCat records where it currently exists. Catalogers editing existing non-RDA records are asked to leave formerly valid GMDs present in records through 31 March 2016. However, do remove the GMD when re-cataloging (and re-coding) a record as RDA.

Machine Manipulation of Existing WorldCat Records

OCLC will begin changing existing WorldCat legacy records after 31 March 2013 to incorporate various useful RDA practices. Legacy records (non-RDA records) need to be made as functional as possible in the future RDA environment to benefit catalogers, systems, and catalog end users. As a post-MARC future becomes a reality in years to come, greater consistency of practice present in existing WorldCat records will allow easier migration to another metadata format.

Anticipated changes include, but are not limited to:

- Adding 336, 337, 338 fields
- Spelling out non-transcribed abbreviations in 255, 300, 500, 504 and other fields
- Converting Latin abbreviations to English equivalents in 245, 260, and other fields
- Converting dissertation notes in 502 field to multiple subfields
- Removing GMDs (after 31 March 2016)
- Heading changes in accordance with RDA

Heading changes are anticipated to spell out abbreviations in headings like "Dept." and to change Bible and Koran headings in accordance with RDA practice.
