Richard Lammert and Ann Heinrichs were re-elected to the Steering Committee for the 2018–2021 term.

TSIG STRUCTURE CHANGE PROPOSAL

Richard Lammert, TSIG Chair, led discussion on the need to change the TSIG structure.

He explained that the governing structure is rather vague and suggested a rewrite as necessary.

Discussion ensued with all in attendance. Questions from discussion raised centered on:

- Number of committee members needed to run interest group effectively.
- Written clarification on proposed structure change.

Due to the overwhelming response to the proposal, the discussion was tabled for a later date.

CALL FOR FUTURE TOPICS

Suggestions were made to sponsor a panel on specific topics or create a webinar. Many found the panel format very helpful.

Sample topics proposed:
